

Wow, wait until you hear about how much your donation to our annual Aiming for Acceptance bowling tournament helped!

The Learning Center is OPEN!

- ❖ Through efforts of many volunteers, contractors, and your donation our big goal of opening a sensory friendly center for agencies to bring life enhancing therapies to southwest Wisconsin has come to fruition. We opened The Learning Center!!
- ❖ In October, we started our first lease agreement with an agency. Five families have already been accepted into the program.
- ❖ The center is actively seeking more contracts which enables more programs.

Autism support meetings and information

- ❖ Meetings were held for families and caregivers to provide resources and opportunities for those on the spectrum.
- ❖ Aiming for Acceptance have collaborated with the Social Services of Grant and Crawford Counties to assist families and foster parents on their autism path.

Family and Educators training

- ❖ We continue to enhance our knowledge and skills by attending conferences and trainings.

Law enforcement and the Autism community

- ❖ County and municipal law enforcement as well as First Responders have been receiving ongoing trainings.
- ❖ Aiming for Acceptance has been assisting a state wide Critical Incident Training for working with the Autism Community.

Thank you for all you helped us do last year!

Please consider both donating and registering a team for the bowling tournament in Boscobel on April 7th.

Sincerely, the Aiming for Acceptance Board
